**NOTICE TO: Members of Wilson-Kniffen Lateral and Rankin-Spears\* Lateral**

**Re: Planned Construction Work and Water Service Outage  
during the Week of October 31**

Residents on these Laterals can be expecting an approximately one business day outage during the week between October 31st and November 4<sup>th</sup>. **A DOOR HANGER Notice will be placed on your property with more precise details of the planned outage by the contractor a few days prior to the scheduled day.**

Rankin-Spears serves property on Ballantine, Hess, Coleman, Go-A-Quah, Cedar, Cloverdale, and Pinecrest. Wilson-Kniffen serves property on Panorama, Cedar Lake and Aspen.

The District is installing master meters for these two laterals to better locate leaks and to account for water loss. The Lateral pipeline will need to be shut-off while the meter is being installed at the beginning of the lateral.

For further information please watch for the notice on your door. Please be advised that the project may be delayed should a snowstorm occur prior to or during the planned work schedule. Throughout construction, we will keep our voice messaging up to date with the status at 303-526-2025.
